1.1 Introduction	3
1.2 Legislative framework	3
1.3 Situation Analysis	4
1.4 Demographics	5
CHAPTER 2: ORGANISATIONAL PERFORMANCE MANAGEMENT	6
2.1 Executive Summary	6
2.2 Objective of PMS	6
2.3 Performance Audit Committee	7
2.4 Performance Evaluation Panel	7
2.5 Auditing of Performance Information	8
2.6 Analysis of Performance Achievements	9-11
2.7 Service Delivery Key Highlights	12
2.8 Service Delivery Key Challenges	13
2.4 Political and Administrative Governance	13-16
CHAPTER 3: SERVICE DELIVERY PERFORMANCE	17
3.1.1 Performance Level of the municipality	17-18
3.1.2 General Depiction Performance Analysis	18
3.1.3 Annual Performance per KPA	19
3.1.4 The year-on-year Annual Performance Comparison	20
CHAPTER 4: COMPREHENSIVE SDBIP	21
4.1 Service Delivery and Budget Implementation Plan 2024/25	21-92
✚ Basic Service Delivery and Infrastructure Investment	38-54
✚ Community Safety, Development and Sustainable Environment	55-62
✚ Municipal Financial Viability	63-71
✚ Spatial Development and Transformation	72-81
✚ Local Economic Development	82-93
✚ Good Governance and Public Participation	94-96
✚ Municipal Transformation and Institutional Development	97-106
✚ Good Governance and Public Participation	106-109
CHAPTER 5: SUMMARY	110-111
5. SUMMARY	110
5.1 Conclusion	111
ANNEXTURE: A	112-115

CHAPTER 1

1. INTRODUCTION

The **Gamagara Local Municipality** remains steadfast in its commitment to fostering a **high-performance culture** across all spheres of its governance structure including **political structures, political office bearers, councillors, and the municipal administration**. This commitment is driven by a shared vision of achieving **accelerated, efficient, and responsive service delivery** that meets the evolving needs of the Gamagara community.

Recognizing that performance excellence is the foundation of sustainable development, the Municipality has developed and institutionalized a **Performance Management Framework and Policy**. This policy framework serves as a critical instrument for embedding performance management into the Municipality's operational ethos. It enables the implementation, monitoring, assessment, measurement, and review of performance at all organizational levels—thus aligning all municipal functions with the Municipality's strategic objectives and service delivery standards.

This report represents Gamagara Local Municipality's ongoing commitment to **performance-driven governance, developmental accountability, and transparent service delivery**. It reflects not only how the Municipality has performed over the financial year but also how it continues to build systems that **embed excellence, foster innovation, and deliver tangible outcomes** to the residents it serves.

1.1 Purpose and Function of the Performance Management Framework

The Performance Management Framework provides a **systematic and comprehensive approach** to managing performance across the institution. It is designed to:

- ✚ Ensure **alignment** between the **Integrated Development Plan (IDP)**, the **municipal budget**, and the **Performance Management System (PMS)**;
- ✚ Promote a **cyclical approach to planning, implementation, monitoring, and reporting**;
- ✚ Facilitate **accountability and transparency** in service delivery;
- ✚ Support decision-making through **evidence-based performance measurement**;
- ✚ Enable both **internal oversight** and **public participation**, reinforcing the Municipality's developmental role.

The framework positions performance management not as a stand-alone administrative process, but as a **core governance function**, linked to resource allocation, organizational transformation, and citizen satisfaction.

1.2 Scope of This Performance Report

This report provides a detailed account of the Municipality's performance for the financial year **01 July 2024 to 30 June 2025**, with specific focus on the implementation of the **Service Delivery and Budget Implementation Plan (SDBIP)**. It evaluates the extent to which the objectives articulated in the **2024/2025 Integrated Development Plan (IDP)** have been achieved, using **Key Performance Indicators (KPIs)** that were adopted for the period.

The report is structured to reflect performance under each of the **Municipal Key Performance Areas (KPA's)**, with each KPA containing several KPIs tailored to address critical areas of development and service delivery. These KPIs were carefully crafted by the Municipality to provide **focus, coherence, and strategic direction** to its development agenda.

1.3 Alignment with National Strategic Priorities

In addition to municipal priorities, the report also aligns with and reports on the **seven (7) National Government's Strategic Key Performance Areas** for local government.

These KPAs are nationally recognized benchmarks designed to standardize and guide municipal performance across South Africa. They include:

1. **Basic Service Delivery and Infrastructure Development**

2. **Local Economic Development (LED)**
3. **Municipal Institutional Development and Transformation**
4. **Municipal Financial Viability and Management**
5. **Public Safety and Sustainable Environment**
6. **Good Governance and Public Participation**
7. **Spatial Development and Transformation**

Through alignment with these strategic areas, the Municipality ensures that its local development initiatives are in step with broader **national policy directives** and contribute to the collective developmental goals of the country.

1.4 Legislative and Regulatory Framework

The implementation and management of performance within Gamagara Local Municipality is **legally grounded in the Local Government: Municipal Systems Act, 2000 (Act No. 32 of 2000)**. Section 38 of the Act places a **legislative obligation** on all municipalities to develop and maintain a **Performance Management System (PMS)** that is aligned with the **municipality's priorities, objectives, indicators, and targets** as set out in its IDP.

The Act further emphasizes that a PMS must be **practical, implementable, and contextually appropriate**, taking into account the Municipality's available resources, institutional capacity, and service delivery context. This ensures that performance management is not merely a compliance exercise, but a **strategic governance tool** that enhances accountability, promotes efficiency, and drives improved service delivery outcomes.

The framework is further supported by the **Municipal Planning and Performance Management Regulations (2001)**, which provide detailed guidance on the design, implementation, monitoring, and reporting of municipal performance.

Performance Management is a core component of strategic organizational management. It serves as a critical mechanism for aligning daily operations with long-term developmental goals. It empowers leadership, management, employees, and stakeholders at various levels of the municipality with structured tools and methodologies to undertake regular planning, continuous monitoring, and periodic assessment and review of the institution's performance.

The performance of the Municipality is primarily assessed against the **Key Performance Indicators (KPIs)** and objectives set out in the **Integrated Development Plan (IDP)**, which serves as the principal strategic framework guiding service delivery and development priorities.

In accordance with **Section 40 of the Municipal Systems Act of 2000** and the supporting **Municipal Planning and Performance Management Regulations of 2001**, the Municipality is required to establish and maintain mechanisms to monitor, measure, review, evaluate, and continuously improve its PMS. These mechanisms must function across all levels of the institution—namely at the **organizational, departmental, and individual employee levels**—to ensure a holistic and integrated approach to performance improvement.

Further reinforcing this obligation, **Section 46(1)(a)** of the Municipal Systems Act mandates that municipalities must prepare an annual performance report as part of their annual reporting process. This report must, among other things, include:

- ✚ **An assessment of the performance of the municipality and any external service providers** for the financial year, including a comparison of actual results against the set performance targets, and against the previous year's performance;
- ✚ **The service delivery priorities and performance targets** identified by the municipality for the upcoming financial year; and
- ✚ **Measures taken or planned to improve performance**, particularly in areas where underperformance has been identified.

The critical responsibility for overseeing, coordinating, and ensuring the effective implementation of the **Organizational Performance Management System (PMS)** resides within the **Performance Management Unit**, strategically located in the **Office of the Municipal Manager**.

This placement underscores the Municipality's recognition of performance management as a key driver of institutional excellence, accountability, and results-oriented governance.

The **Performance Management Unit (PMU)** is staffed by **two full-time, dedicated professionals**:

- ✚ A **Manager: Performance Management**, who provides strategic leadership and technical oversight for the design and execution of performance systems; and
- ✚ A **Performance Management Officer**, who supports operational functions including performance data collection, analysis, monitoring, and reporting across all municipal departments.

Together, these officials form the operational backbone of the Municipality's performance management apparatus. Their responsibilities are comprehensive and multi-dimensional, including the following key functions:

- ✚ **Design and maintenance** of the Performance Management Framework, tools, and methodologies to ensure alignment with national legislation, local policies, and strategic priorities.
- ✚ **Coordination and facilitation** of performance planning processes, including the setting of Key Performance Indicators (KPIs) and targets that are aligned with the **Integrated Development Plan (IDP)** and **Service Delivery and Budget Implementation Plan (SDBIP)**.
- ✚ **Monitoring and evaluation** of performance at organizational, departmental, and individual levels to track progress toward service delivery goals;
- ✚ **Preparation of statutory performance reports**, including quarterly reviews, mid-year assessments, and the **Annual Performance Report (APR)** for submission to oversight bodies such as Council, the Auditor-General, and the Department of Cooperative Governance;
- ✚ Ensuring **compliance with relevant legislation**, including the **Municipal Systems Act (Act 32 of 2000)**, the **Municipal Finance Management Act (MFMA)**, and the **Municipal Planning and Performance Management Regulations (2001)**.

Through this **centralized and structured approach**, the Municipality ensures that performance management is not treated as a fragmented or compliance-driven exercise, but as an **institutional culture** that permeates all levels of the organization. The Unit plays a pivotal role in fostering an environment of:

- ✚ **Accountability**: by ensuring that departments and individuals are held responsible for the achievement of agreed-upon targets;
- ✚ **Continuous learning and improvement**: by using performance results to identify areas of underperformance and inform corrective interventions;
- ✚ **Evidence-based decision-making**: by enabling leadership to base strategic decisions on accurate, timely, and well-analyzed performance data.

The work of the Performance Management Unit contributes to enhancing the **quality, efficiency, and impact of municipal service delivery**, supporting the Municipality's broader commitment to developmental local government. It ensures that all efforts remain focused on achieving measurable results that are aligned with the **needs, priorities, and aspirations of the community of Gamagara**.

1.5 Situational Analysis

Gamagara Local Municipality is officially classified as a **Category B municipality** in accordance with the provisions of the **Local Government: Municipal Structures Act (Act 117 of 1998)**. This classification designates it as a **local municipality** with legislative and executive authority shared between the municipal council and the local community, and functioning under the broader jurisdiction of the **John Taolo Gaetsewe District Municipality**, located in the **Northern Cape Province**.

In alignment with ongoing developments in local government legislation and governance reform, the **governance model** of the Gamagara Municipal Council underwent a structural revision. As proclaimed by the **Member of the Executive Council (MEC) for Cooperative Governance, Human Settlements and Traditional Affairs** in the Northern Cape Province, and in accordance with **Section 16 of the Municipal Structures Act**, the Municipality transitioned from a **Plenary Executive System** to a **Collective Executive System combined with a Ward Participatory System**.

This revised governance model is designed to promote **greater accountability, inclusivity, and democratic participation**. It enables more structured and meaningful **community engagement in decision-making processes**, particularly through ward-based representation. Each ward is represented by a councillor who serves as a direct link between the local community and the Municipal Council, ensuring that local voices influence municipal planning and service delivery.

Towns and Spatial Development

The Municipality encompasses **four primary urban centres**:

-  **Kathu**
-  **Sesheng**
-  **Olifantshoek**
-  **Dibeng**

In addition, the settlement of **Dingleton**—once a standalone area—has been **relocated to Kathu** due to the spatial restructuring brought about by **mining operations undertaken by Sishen Iron Ore Mine**. This shift highlights the **dynamic nature of spatial planning and economic development** within the region, which is **heavily influenced by mining activities**.

As such, Gamagara is formally recognized as a **small mining town**, with the **mining sector** serving as the **primary driver of the local economy**, job creation, and population migration. The Municipality continues to experience significant demographic and infrastructural changes, reflective of the pressures and opportunities associated with the extractive industry.

Geographical Location and Strategic Positioning

Gamagara Local Municipality covers a geographical area of approximately **2,619 square kilometres**, representing roughly **10% of the total land area** of the John Taolo Gaetsewe District Municipality. Its **strategic location** in the **northeastern part of the Northern Cape Province** positions it along the **N14 National Road**, a major arterial route that enhances the Municipality's role as a **regional transport corridor**.

-  The N14 connects **Upington** (approximately 200 km southwest) with **Vryburg**, passing directly through the Municipality.
-  Gamagara is located approximately **280 km northwest of Kimberley**, the provincial capital.

This positioning makes Gamagara a vital **logistical and economic link** between key towns and provinces, contributing to its potential as a **hub for trade, mining logistics, and regional economic integration**.

Administrative and Political Structure

The Municipality is subdivided into **eight (8) wards**, each comprising unique settlements and demographic characteristics. These administrative divisions are as follows:

-  **Ward 1:** Kathu
-  **Ward 2:** Babatas, Dibeng Town, Bestwood, and Rheitzhof Plots
-  **Ward 3:** Diepkloof, Skerpdraai, and Olifantshoek Town
-  **Ward 4:** Dittloung and Welgelee
-  **Ward 5:** Sesheng and Mapoteng
-  **Ward 6:** One-third of Kathu, Siyathemba, Rooisand, and Smartietown
-  **Ward 7:** Dibeng Township
-  **Ward 8:** Siyathemba

Each ward is represented by an elected ward councillor and serves as the basic unit for **community participation, development planning, and service delivery prioritization**. The Municipality continues to strengthen ward-based governance mechanisms to ensure **responsive, people-centered local government** that is capable of addressing both urban and rural development needs.

Map 1: Municipal map

Gamagara Local Municipality is located in the **northeastern part of the Northern Cape Province**, within the **John Taolo Gaetsewe District**. It lies along the **N14 national road**, which connects **Upington** (approximately 200 km southwest) to **Kuruman**, enhancing regional connectivity and economic activity.

The municipality is also about **280 km northwest of Kimberley**, the provincial capital. Its **strategic location** supports trade, logistics, and mining-driven development, positioning Gamagara as a vital economic corridor in the region.

CHAPTER 2: ORGANISATIONAL PERFORMANCE MANAGEMENT

2. PERFORMANCE MANAGEMENT OVERVIEW

This report presents a **comprehensive and structured assessment** of the extent to which **Gamagara Local Municipality** has succeeded in achieving its **predetermined objectives**, as outlined in its **Integrated Development Plan (IDP)** and measured through clearly defined **Key Performance Indicators (KPIs)**.

2.1 Assessing Institutional Performance

The evaluation of municipal performance is conducted using a **consolidated institutional scorecard**, which aggregates performance results across all departments. Each department's performance is measured against specific targets and indicators that align with broader municipal goals. This allows for a detailed analysis of how individual functions contribute to the overarching **strategic priorities**, including service delivery, governance, infrastructure development, and financial sustainability. Where performance gaps are identified, the report also includes:

- ✚ **Contextual explanations** for the shortfall;
- ✚ **Mitigating factors** that may have hindered delivery;
- ✚ And most importantly, **corrective interventions**—either already implemented or planned—to address the underperformance.

This structured approach reinforces the Municipality's commitment to **transparency, accountability, and continuous improvement**.

Legislative and Regulatory Framework

The performance management process is **legally mandated** and guided primarily by the:

- ✚ **Local Government: Municipal Systems Act (Act 32 of 2000)**; and
- ✚ **Municipal Planning and Performance Management Regulations (2001)**.

These frameworks require all municipalities to implement performance management systems that are aligned to strategic plans and resource capabilities, and that operate across **three interrelated levels**:

- ✚ **Organizational Level:** Performance is assessed against the Municipality's strategic objectives, as set in the IDP and aligned with the budget. This level reflects the overall institutional effectiveness.
- ✚ **Operational Level:** Also referred to as the departmental or service level, this involves measuring the performance of departments and service delivery units based on program-specific targets.
- ✚ **Individual Level:** Focused on municipal employees, this level evaluates staff performance against personal work plans, which are in turn aligned with departmental and municipal goals.

These three levels are **interdependent**—success or failure at one level can influence outcomes at the others. Therefore, the Municipality adopts a **holistic, integrated approach** to performance planning, implementation, and monitoring.

Structured Performance Management Process

At Gamagara Local Municipality, performance management is executed through a **systematic and cyclical process**, typically illustrated through a performance management model, and comprising the following six key stages:

- ✚ **Planning** – Setting clear objectives, KPIs, and targets that are aligned with the IDP and budgetary allocations.
- ✚ **Implementation** – Executing strategic plans and delivering services through departmental projects and programs.
- ✚ **Monitoring** – Conducting regular, ongoing tracking of progress against set targets to identify deviations early.

- ✚ **Measurement and Evaluation** – Objectively assessing actual performance against planned outcomes, using verified data.
- ✚ **Reporting** – Compiling and presenting performance findings in statutory documents such as the **Service Delivery and Budget Implementation Plan (SDBIP)** and **Annual Performance Report (APR)** for both internal and external stakeholders.
- ✚ **Improvement** – Taking corrective action to address underperformance, while refining systems and processes to enhance future results.

This framework ensures that performance management is not treated as a stand-alone administrative function, but rather as an **integral part of the Municipality's broader governance system**. It supports **effective resource utilization**, enhances **decision-making**, and drives improved **service delivery outcomes** for the community of Gamagara.

2.2 Objectives of PMS

The Municipality's PMS is the primary mechanism to monitor, review and improve the implementation of its IDP and to gauge the progress made in achieving the objectives as set out in the IDP. The PMS process plan includes the following objectives that the system should in addition fulfil:

2.2.1 Facilitate increased accountability

The performance management system should provide a mechanism for ensuring increased accountability between the local community, politicians, the Municipal Council and the municipal management team.

2.2.2 Facilitate learning and improvement

The PMS should facilitate learning to enable the Municipality to improve delivery.

2.2.3 Provide early warning signals

It is important that the system ensure decision-makers are timeously informed of performance related risks, so that they can facilitate intervention, if necessary.

2.2.4 Facilitate decision-making

The performance management system should provide appropriate management information that will allow efficient, effective and informed decision-making, particularly on the allocation of resources. The functions listed above are not exhaustive but summarise the intended benefits of the system.

2.3 Performance Audit Committee

The **Audit, Risk, and Performance Committee (ARPC)** of **Gamagara Local Municipality** has been fully functional and operational since its formal establishment in **2020**, following the signing of a **Service Level Agreement (SLA)** between the Municipality and the **John Taolo Gaetsewe District Municipality**. This strategic agreement was initiated to strengthen Gamagara's institutional governance capacity by leveraging external expertise in line with the principles of accountability and oversight as outlined in **national legislation**.

Legal Framework and Composition

The ARPC was constituted in accordance with **Section 166 of the Municipal Finance Management Act (MFMA), Act 56 of 2003**, which mandates the establishment of an **independent audit committee** for all municipalities. The purpose of this legislative provision is to ensure that municipalities have access to objective oversight structures that function **independently from the municipal administration**.

The Committee is composed of **three (3) independent members**, appointed based on their qualifications, professional experience, and alignment with governance best practices. Their role is to provide critical oversight in the areas of:

- ✚ **Audit assurance and financial reporting,**
- ✚ **Risk management,**
- ✚ **Internal control systems, and**
- ✚ **Performance monitoring.**

The Committee operates in line with its **formal Charter**, which outlines its scope, responsibilities, and reporting lines, and also adheres to **guidelines issued by the Auditor-General of South Africa (AGSA)**. As per its mandate, the ARPC is required to convene **a minimum of four (4) meetings per financial year**, although additional meetings may be held as required by operational demands.

Oversight Activities and Governance Contributions

During the reporting period under review, the ARPC convened several meetings, each of which served a **critical governance and oversight function**. The Committee's deliberations were comprehensive and addressed a variety of key governance matters, including but not limited to:

- ✚ The **review and evaluation of the Municipality's risk management framework**, assessing whether risk mitigation strategies were effectively integrated into municipal planning and operations;
- ✚ The **assessment of the adequacy and effectiveness of internal control systems**, with a focus on financial, compliance, and operational controls across departments;
- ✚ The **monitoring of governance and ethical conduct standards**, to ensure integrity and accountability within the administration.

One of the Committee's central responsibilities involved **tracking the implementation of audit findings**. This included:

- ✚ **Internal audit recommendations**, which often highlight control weaknesses, inefficiencies, or policy non-compliance; and
- ✚ **External audit findings**, particularly those raised by the **Auditor-General**, which frequently relate to the Municipality's financial management, asset control, and performance reporting.

The Committee played a **pivotal role** in ensuring that **remedial actions were implemented**, and that any recurring issues from prior audit cycles were resolved through sustained institutional reforms.

Review of Financial Statements and Regulatory Compliance

Another significant area of focus was the **review of the Municipality's annual financial statements** prior to their submission for external audit. These reviews were aimed at ensuring that the financial statements:

- ✚ Reflect an **accurate and fair view** of the Municipality's financial position;
- ✚ Are prepared in accordance with **Generally Recognized Accounting Practice (GRAP)** and other applicable accounting frameworks;
- ✚ Meet the required standards for **transparency, completeness, and regulatory compliance**.

The ARPC's input during this process served as a **critical quality control checkpoint**, reducing the risk of audit qualifications or adverse audit opinions, and enhancing public trust in municipal financial reporting.

Strengthening Governance and Accountability

Through its structured oversight role, the Audit, Risk, and Performance Committee has made a **significant contribution** to enhancing the **governance architecture** of Gamagara Local Municipality. Its work during the year under review has:

- ✚ Reinforced the principles of **good governance**.
- ✚ Promoted a culture of **compliance and accountability**; and
- ✚ Strengthened the Municipality's overall ability to deliver **credible, responsive, and effective services** to its communities.

The ongoing functionality and impact of the ARPC reflect the Municipality's commitment to **institutional integrity, performance excellence**, and continuous improvement in all areas of municipal administration.

2.3.1 Attendance of meetings for the 2024/25 financial year

Name of Member	Number of Meetings held during the year	Number of Meetings attended
Mr. J Snyders	6	6
Mr. K Nkoe	6	6
Mr. B Mathibela (Appointed 01 April 2024)	6	5

2.4 Performance Evaluation Panel and Oversight Functions

In line with the **Municipal Performance Management Regulations (2001)** and the **Local Government: Municipal Systems Act (Act 32 of 2000)**, the **annual performance evaluation of managers directly accountable to the Municipal Manager** must be conducted through an **evaluation panel** that ensures independence, objectivity, and alignment with municipal strategic objectives.

Evaluation Panel Composition: Managers Reporting to the Municipal Manager

To maintain transparency and credibility in the evaluation of **senior managers reporting directly to the Municipal Manager**, the following individuals must constitute the evaluation panel:

- ✚ **The Mayor** – serving as the political head of the municipality and representing Council's strategic oversight role.
- ✚ **The Chairperson of the Audit, Risk and Performance Committee (ARPC)** – or alternatively, the Chairperson of the Audit Committee (AC) in the absence of a dedicated PAC.

- ✚ **A Member of the Mayoral Committee or Executive Committee** – or in municipalities with a **Plenary Executive System**, any other appointed **member of Council**.
- ✚ **A Municipal Manager from another municipality** – to bring an external, objective perspective and ensure comparability and fairness in the evaluation process.
- ✚ **The Manager responsible for Human Resources or Performance Management** – this official must provide **secretariat support** to the panel, including administrative coordination, documentation, and record-keeping.

Evaluation Panel Composition: Municipal Manager

When evaluating the **Municipal Manager**, a separate panel is established to ensure appropriate oversight. This panel comprises:

- ✚ **The Mayor** – who leads the process as the political representative of the Council.
- ✚ **Chairperson of the Performance Audit Committee (PAC)** – or Chairperson of the Audit Committee if no PAC exists.
- ✚ **A Member of the Mayoral Committee or Executive Committee**
- ✚ **A Municipal Manager from another municipality**
- ✚ **The Manager responsible for Human Resources or Performance Management** – serving again as the secretariat to facilitate the process.

These panels ensure that performance evaluations are not only compliant with regulations but are also comprehensive, multi-perspective, and strategically aligned.

Role of the Audit, Risk, and Performance Committee (ARPC) in Performance Management Oversight

The **Audit, Risk, and Performance Committee (ARPC)** plays a crucial advisory and oversight role in the **performance management system (PMS)** of the Municipality.

Our Committee possess a thorough understanding of the **strategic direction, focus areas, and objectives** as captured in the **Integrated Development Plan (IDP)** and the **Service Delivery and Budget Implementation Plan (SDBIP)**.

In executing its mandate, the ARPC performed the following key functions:

- ✚ **Review and comment on compliance** with all statutory requirements, including alignment with **performance management best practices and national standards**.
- ✚ **Evaluate the alignment** between the IDP, Budget, SDBIP, and **performance agreements** to ensure cohesion in planning, resourcing, and implementation.
- ✚ **Assess the relevance and measurability of performance indicators**, ensuring they are well-defined, service-oriented, and capable of accurately measuring performance in terms of service delivery and impact.
- ✚ **Review compliance with in-year performance reporting requirements**, including mid-year performance assessments and quarterly reports.
- ✚ **Review internal audit's quarterly performance reports**, offering independent commentary on risks, control weaknesses, and areas of non-performance.
- ✚ **Review and comment on the Municipality's Annual Report**, providing feedback within legislated timeframes to inform Council and public deliberations.
- ✚ **Evaluate the Municipality's performance management system** at least **twice annually** and make evidence-based recommendations for its improvement and institutional strengthening.
- ✚ **Submit an audit report to the Municipal Council at least twice per financial year**, summarizing its oversight findings, concerns, and recommendations on both performance and governance issues.

This structured approach to performance evaluation and oversight ensures that the **Gamagara Local Municipality** upholds principles of:

- ✚ **Accountability,**
- ✚ **Strategic alignment,**

- ✚ **Evidence-based performance monitoring**, and
- ✚ **Regulatory compliance**.

By institutionalizing these practices, the Municipality reinforces its commitment to **transparent governance**, **efficient service delivery**, and **continuous performance improvement** across all levels of administration.

2.5 Auditing Performance Information

The **Internal Audit function** of **Gamagara Local Municipality** is delivered through a **shared services model** in partnership with the **John Taolo Gaetsewe District Municipality**. This strategic collaboration has been adopted to **maximize the efficiency of limited resources**, ensure the **broad application of audit best practices**, and enhance **audit coverage** across both municipalities.

Governance and Coordination

The Internal Audit function is centrally **coordinated and overseen by an Internal Audit Manager**, who operates from the **Office of the Municipal Manager**. This positioning ensures direct alignment with **executive oversight structures** and facilitates the integration of audit recommendations into the broader strategic and operational framework of the Municipality.

Audit Team Composition and Professionalism

The Internal Audit Unit is comprised of a team of **qualified and competent professionals**, including:

- ✚ **Manager: Internal Audit**
- ✚ **Senior Internal Auditors**, and
- ✚ **Internal Auditor Clerks**.

Together, the team executes the **audit mandate** by providing **independent, objective assurance and consulting services**. The ultimate aim is to **add value, improve the effectiveness and efficiency of municipal operations**, and support the institution in achieving its strategic objectives.

Scope of Work and Focus Areas

A central component of the Internal Audit Unit's responsibility is the **quarterly auditing of the Municipality's Performance Management System (PMS) and Predetermined Objectives (PDOs)**. These audits assess the accuracy, reliability, and integrity of reported performance information and compliance with relevant legislation, including:

- ✚ The **Municipal Finance Management Act (MFMA)**,
- ✚ The **Municipal Systems Act**, and
- ✚ **Performance Management Regulations**.

These audits are conducted in accordance with a **risk-based internal audit plan**, which is:

- ✚ Developed annually,
- ✚ Approved by the **Audit, Risk and Performance Committee (ARPC)**, and
- ✚ Aligned with the Municipality's strategic risk profile.

This approach ensures that audit resources are focused on **high-risk and high-impact areas**, thereby maximizing the relevance and effectiveness of audit outcomes.

Audit Reporting and Accountability

Findings and recommendations from internal audits are:

- ✚ **Formally reported to senior management** for immediate intervention,
- ✚ **Presented to the Audit, Risk, and Performance Committee (ARPC)** to support its oversight role, and
- ✚ Used as a basis to track **corrective actions**, ensuring that recurring weaknesses are addressed and mitigated.

Through this process, the Internal Audit Unit contributes significantly to:

- ✚ **Improved performance monitoring,**
- ✚ **Institutional compliance,** and
- ✚ **Enhanced accountability and transparency** in service delivery.

Audit Activities for the Year Under Review

During the financial year under review, the Internal Audit Unit successfully implemented a range of planned activities, including but not limited to:

- ✚ Audits on the **effectiveness of internal control systems,**
- ✚ **Compliance audits** across key service delivery functions,
- ✚ **Evaluation of financial and non-financial information** reported in quarterly and annual reports,
- ✚ **Review of risk management processes,** and
- ✚ Specific audits relating to **supply chain management, asset control, and revenue management.**

These audit engagements were instrumental in identifying process inefficiencies, policy non-compliance, and performance gaps, thereby equipping management and Council with actionable insights for institutional improvement.

AUDIT PROJECT	FOCUS AREA
Review of Performance Information Quarter 1	*Consistency in reporting *Measurability and Reliability *Performance Report Reviews *Compliance with relevant Laws and Regulations
Review of Performance Information Quarter 2	*Consistency in reporting *Measurability and Reliability *Performance Report Reviews *Compliance with relevant Laws and Regulations
Review of Performance Information Quarter 3	*Consistency in reporting *Measurability and Reliability *Performance Report Reviews *Compliance with relevant Laws and Regulations
Review of Performance Information Quarter 4	*Consistency in reporting *Measurability and Reliability *Performance Report Reviews *Compliance with relevant Laws and Regulations

2.6 Analysis of Performance Achievements

Performance Monitoring remains a critical cornerstone of **Gamagara Local Municipality's** strategic governance and service delivery framework. Embedded within the broader **Performance Management System (PMS)**, it plays a vital role in supporting the effective implementation of the **Integrated Development Plan (IDP)** by enabling real-time tracking and assessment of progress against the Municipality's strategic priorities.

By institutionalizing a culture of **systematic, routine performance review**, the Municipality is better positioned to:

- Evaluate the efficiency and effectiveness of service delivery,
- Identify gaps and constraints early,
- Take timely corrective action,
- Ensure optimal utilization of financial and human resources, and
- Promote transparency and accountability to its citizens and stakeholders.

This proactive approach significantly enhances the Municipality's ability to **deliver quality services, meet developmental mandates, and respond dynamically to community needs.**

The Role of Performance Monitoring in Service Delivery

Performance Monitoring is not merely a compliance requirement but a strategic enabler of good governance. It ensures that:

- ✚ Services are delivered **effectively, efficiently, and economically**;
- ✚ Institutional efforts remain **aligned with the IDP and Service Delivery and Budget Implementation Plan (SDBIP)**;
- ✚ Emerging risks or underperformance are identified early; and
- ✚ Remedial actions are implemented before performance deviations become systemic or entrenched.

This system of continuous review promotes a culture of **results-based management** and **continuous improvement**, ensuring that the Municipality evolves and adapts to both internal and external service delivery challenges.

Analysis of Year-End Institutional Performance (2024/2025)

The performance analysis for the **2024/2025 financial year** highlights **marked improvements** in overall service delivery and institutional performance compared to the previous financial year (2023/2024). The data reflects the **effectiveness of strengthened planning, performance oversight, and interdepartmental coordination.**

Achievement of Annual Targets

- ✚ **74% of all annual targets** were successfully achieved in 2024/2025.
- ✚ This reflects a **14 percentage point improvement** from the 60% achievement rate in the 2023/2024 financial year.
- ✚ The significant uptick in performance is indicative of:
 - ✓ Improved operational execution,
 - ✓ Strengthened accountability at departmental level,
 - ✓ Better alignment of planning and resources, and
 - ✓ Enhanced focus on achieving measurable outcomes.

Non-Achievement of Targets

- ✚ **24% of annual targets** were not achieved in 2024/2025.
- ✚ This represents a **notable decline** in underperformance compared to the previous year's 38% rate.
- ✚ The **14-percentage point reduction** in non-achievement signals improved project implementation, timely remedial action, and more realistic target-setting practices.

Key Performance Area (KPA) Analysis

A further breakdown of the Municipality's performance per strategic focus area for the 2024/2025 financial year is outlined below:

no	KEY PERFORMANCE AREAS	% TARGET ACHIEVEMENTS
1.	Basic Service Delivery and Infrastructure Development	87%
2.	Public Safety and Sustainable Environment	94%
3.	Good Governance and Public Participation	86%
4.	Socio and Economic Development	65%
5.	Spatial Development and Transformation	64%
6.	Municipal Transformation and Institutional Development	52%
7.	Municipal Financial Viability and Management	78%
Total	Overall Institutional Performance	74%

2.6.1 Basic Service Delivery and Infrastructure Development

The Key Performance Area (KPA) Basic service Delivery and Infrastructure Investment had a total number of **15** planned targets in the 2024/25 financial year, **13** targets were achieved and **02** could not be achieved.

Gamagara Local Municipality made significant progress in improving basic services and infrastructure across its jurisdiction during the 2024/2025 financial year.

Key accomplishments include:

Electricity Infrastructure

- ✚ **174 stands** electrified in **Ditloung**, addressing historical backlogs.
- ✚ **307 electrical meters** installed across the municipality to improve billing accuracy and energy efficiency.

Water Infrastructure

- ✚ **4 boreholes** drilled in **Dibeng Phase 1** to support bulk water supply.
- ✚ **2,144 water audits** conducted under **Phase 2** of the Water Audit Programme to reduce losses and improve usage.

Sanitation

- ✚ **500 households** connected to the sewer network in **Dibeng (Phase 4)**.
- ✚ **58% of work completed** on the sewer network for **529 stands (Phase 5)** in Dibeng.
- ✚ **100% completion** of a gravity sewer network in **Mapoteng**, eliminating the need for a pumpstation.

Water Reticulation

- ✚ **10% completion** achieved on **Olifantshoek Phase 2**, aimed at servicing **1,300 stands**.

Waste Management

- ✚ **Feasibility study completed** in March 2025 for a new **landfill site in Dibeng**.

Recreational Infrastructure

- ✚ **78% progress** on the **Dibeng sports field upgrade**, bringing the facility closer to readiness for community use.

Roads and Transport (via Kumba SLP Partnership)

- ✚ **1.3 km** of internal roads upgraded in **Dibeng**.
- ✚ **1.16 km** of internal roads upgraded in **Mapoteng**.
- ✚ Roadworks included improved surfacing, drainage, signage, and safer, more accessible routes for residents.

2.6.2 Public Safety and Sustainable Environment (Community Services Department)

During the 2024/2025 financial year, **Gamagara Local Municipality** achieved full compliance with its **Public Safety and Sustainable Environment** objectives, successfully meeting **17 planned targets** out of **18 targets** under this Key Performance Area (KPA). This outcome highlights the municipality's proactive and results-oriented approach to safeguarding public health, safety, and environmental sustainability.

2.6.2.1 Waste Management and Sanitation

The municipality ensured reliable **solid waste collection** services for both **households and businesses**:

- ✚ **54000.5 cubic meters** of household waste removed from **Kathu, Dibeng, and Olifantshoek**
- ✚ **40 797.58 cubic meters** of commercial waste removed

These efforts contributed significantly to maintaining clean urban environments and reducing the public health risks associated with uncollected waste.

2.6.2.2 Water Quality and Wastewater Monitoring

To ensure **safe water supply and sanitation**, the following sampling and testing initiatives were undertaken:

- ✚ **325 water samples** analyzed to detect and prevent **waterborne diseases**
- ✚ **72 sewage effluent samples** analyzed for **bacteriological and chemical safety**
- ✚ Collaboration with **CSIR and DWS** ensured advanced testing capabilities and reinforced water quality monitoring efforts.

2.6.2.3 Environmental Health and Compliance

- ✚ **250 environmental inspections** were conducted at business premises across the municipality to monitor **compliance with environmental regulations** and protect residents from environmental hazards.

2.6.2.4 Road Safety and Law Enforcement

- ✚ **5,439 “stop and approach” road safety operations** were carried out to improve **compliance with traffic laws** and reduce road accidents.
- ✚ **Kathu Vehicle Testing Station (VTS)** was operational, except during April due to a machine breakdown, briefly affecting vehicle inspections.

2.6.2.5 Cemetery and Park Maintenance

- ✚ All municipal **cemeteries were maintained**, ensuring respectful and orderly burial services.
- ✚ **Parks were regularly maintained** for community recreation, promoting public health and well-being.

2.6.2.6 Fire and Disaster Risk Management

The **Fire Prevention Division**, managed by **Rural Metro Fire and Rescue Services**, responded to:

- ✚ **124 fire incidents** during the year
- ✚ **Fire safety inspections** were conducted to mitigate fire risks in public and private facilities.
- ✚ **13 disaster awareness campaigns** were held to educate the community on hazard preparedness and response, key to **reducing community vulnerability** and enhancing **resilience**.

The municipality demonstrated **strong performance and governance** in the Public Safety and Sustainable Environment sector by achieving **94% of its planned targets**. Through coordinated waste management, rigorous water and environmental monitoring, robust fire and disaster preparedness, and well-maintained public amenities, municipality affirmed its commitment to a safe, sustainable, and resilient living environment for its residents.

2.6.3 Good Governance and Public Participation

During the 2024/2025 financial year, **Gamagara Local Municipality** demonstrated a strong commitment to governance, oversight, and participatory democracy through the consistent convening of statutory and strategic meetings. These meetings played a crucial role in guiding municipal operations, facilitating stakeholder engagement, and ensuring accountability in line with legislative prescripts.

The Key Performance Area (KPA) Good Governance and Public Participation had a total number of **28** planned targets in the 2024/25 financial year, **24** targets were achieved and **04** could not be achieved in the year under review.

2.6.3.1 Council and Administrative Governance:

- ✚ The **Municipal Council**, as the highest decision-making body, convened a total of **09 ordinary Council meetings** during the year under review. These sessions served to deliberate on key policy, budgetary, and service delivery matters, as well as to adopt resolutions critical to the strategic direction of the Municipality.
- ✚ The **Management team** of the Municipality held **06 formal Management Meetings** throughout the four quarters. These sessions were essential for aligning departmental operations, reviewing implementation progress, and addressing cross-cutting challenges affecting service delivery.
- ✚ **Caucus meetings** were also held during the reporting period, allowing political office bearers and councillors to consolidate their positions on council matters, ensure alignment within parties, and prepare effectively for Council sessions.
- ✚ The Municipality provided **secretarial support** for a total of **04 Portfolio Committee meetings**. These committees, which focus on specific sectors such as Infrastructure, Finance, Community Services, and Corporate Services, are vital in ensuring in-depth analysis of policies and reports before they are tabled in Council.
- ✚ **06 Executive Committee (Exco) meetings** were convened to facilitate oversight and policy direction. As the executive arm of Council, Exco meetings enabled focused discussion on municipal priorities, budgeting, and urgent service delivery interventions.
- ✚ The **Municipal Public Accounts Committee (MPAC)**, responsible for financial oversight and accountability, held **04 meetings** during the year. MPAC played a pivotal role in interrogating financial reports, reviewing audit outcomes, and ensuring that public funds are utilized efficiently and transparently.

2.6.3.2 Stakeholder Engagement and Public Participation:

In alignment with the principles of cooperative governance and developmental local government, the Municipality undertook a comprehensive public participation programme during the financial year. Key activities included:

- Hosting **IDP Representative Forums**, which brought together ward committee members, sector departments, traditional leaders, civil society, and business stakeholders. These forums provided a platform for input into the **Integrated Development Plan (IDP)** and service delivery priorities.
- **IDP Steering Committee meetings** were held to facilitate interdepartmental coordination and technical alignment of IDP programmes, ensuring that municipal planning remained responsive and integrated.
- To ensure that community voices are reflected in municipal development planning, **IDP Ward Consultative meetings** were convened in **all eight wards**. These engagements allowed residents to articulate their developmental needs, challenges, and priorities directly to municipal leadership.

2.6.4 Social and Economic Development

The Key Performance Area (KPA) Social and Economic Development had a total number of **26** planned targets in the 2024/25 financial year **17** target was achieved, **09** could not be achieved, in the year under review.

To enhance and develop sustainable economic opportunities within the municipality, a **Local Economic Development (LED) Forum** was convened, in collaboration with key stakeholders.

The purpose of the forum was to provide a structured platform for dialogue, coordination, and partnership between the municipality, **local businesses, community representatives, government agencies, and development entities**.

The LED Forum aimed to identify economic development challenges, share insights, and explore innovative strategies to **stimulate local economic growth, job creation, and entrepreneurship**. Stakeholders were encouraged to contribute ideas and resources that could lead to inclusive economic participation, investment attraction, and support for small, medium, and micro enterprises (SMMEs).

This collaborative engagement forms part of the municipality's ongoing commitment to integrated development planning and **sustainable economic empowerment**.

The outcomes of the forum are expected to inform future initiatives, strengthen intersectoral partnerships, and contribute to the overall economic resilience of the municipality. Moving forward, the insights gained and relationships formed during the LED Forum will be used to shape **future LED strategy**, inform **project pipelines**, and refine the **municipality's economic development programmes**.

These efforts are aimed at improving the quality of life for residents through **job creation, enterprise development, and economic diversification**, in line with Gamagara's developmental mandate.

2.6.5 Spatial Development and Transformation

During the 2024/25 financial year, the **Key Performance Area (KPA) of Spatial Development and Transformation** focused on enhancing compliance with planning frameworks, ensuring orderly development, and promoting sustainable land use across the municipality. Out of a total of **25 planned targets**, the municipality successfully **achieved 16**, while **9 targets could not be met**, reflecting both progress and ongoing challenges in the spatial development space.

2.6.5.1 Land Use and Building Control

To enhance awareness and compliance, the Municipality conducted targeted **Land Use and Building Control Awareness Campaigns**. These initiatives were aimed at educating communities and stakeholders about the regulatory frameworks governing development. The campaigns sought to **prevent, mitigate, and respond** to illegal or non-compliant land use activities and promote orderly spatial development aligned with municipal by-laws and national legislation.

As part of the building control enforcement strategy:

- ✚ A total of **1,871 building control inspections** were conducted throughout the year to monitor compliance and ensure that ongoing developments adhered to approved building plans and safety standards.
- ✚ In response to non-compliance, **669 contravention notices** were issued to property owners or developers who violated the **Gamagara Building Control By-law** and the **National Building Regulations (NBR)**. These enforcement actions played a crucial role in curbing illegal constructions and promoting accountability.

Additionally, **Community Awareness Campaigns** on building control and town planning regulations were held to foster public participation and inform residents of their roles and responsibilities in ensuring compliant urban development.

6.2.5.2 Housing Consumer Education

To promote transparency and public engagement in housing delivery, a **Housing Consumer Education session** was held on **30 June 2025** in **Ward 3, Olifantshoek**. A total of **42 residents** participated in this programme, which focused on educating the public about the **National Housing Needs Register (NHNR)**. This platform is vital for understanding housing demand across Gamagara and for ensuring fair and transparent housing allocation processes. The housing plan informed by this register will cover **all areas within the municipal jurisdiction**.

6.2.5.3. Municipal Planning Tribunal (MPT) and SPLUMA Compliance

To strengthen the governance of land development and ensure compliance with the **Spatial Planning and Land Use Management Act (SPLUMA)**, the Municipality established its **own Municipal Planning Tribunal (MPT)**. This institutional mechanism is crucial for making informed, lawful decisions on land use applications.

In the year under review:

- ✚ A total of **three (3) MPT meetings** were successfully convened to adjudicate land use applications.
- ✚ The Municipality issued **83 land use contravention notices**, aimed at addressing developments that occurred without proper approval or were inconsistent with zoning and land use rights.

While the Municipality made commendable progress in achieving the majority of its targets under this KPA, challenges remain in achieving full compliance, particularly around land use regulation and enforcement. The enforcement of building control by-laws, continuous public education, and operationalisation of SPLUMA-aligned structures like the MPT are foundational to advancing spatial transformation. The municipality remains committed to improving performance in this area through strengthened capacity, community engagement, and regulatory compliance.

2.6.6 Municipal Transformation and Institutional Development

The **Key Performance Area (KPA) of Municipal Transformation and Institutional Development** is fundamental to ensuring that the municipality is adequately resourced, well-structured, and professionally capacitated to deliver on its developmental mandate. This KPA focuses on institutional effectiveness, human resource development, skills planning, and overall organisational growth.

For the 2024/25 financial year, a total of **25 planned targets** were set under this KPA. Of these, **13 targets were successfully achieved**, while **12 targets could not be met**. Although this indicates that just over half of the objectives were accomplished, the year was still marked by strategic initiatives aimed at laying a strong foundation for institutional performance improvement in the long term.

2.6.6.1. Workplace Skills Development

In line with the **Skills Development Act** and the **Local Government Sector Education and Training Authority (LGSETA)** requirements, the municipality prioritised the development of a **Workplace Skills Plan (WSP)**. This WSP outlines critical training and development needs for both municipal employees and councillors and serves as a roadmap for capacity building across all departments.

The **Workplace Skills Plan was developed and submitted to LGSETA in April 2025**. This submission reflects the Municipality's commitment to continuous learning, upskilling, and investing in the growth and professional development of its workforce. It also ensures compliance with legislative frameworks governing employee training and skills development in local government.

2.6.6.2. Job Description Review and Role Clarity

As part of efforts to **enhance organisational efficiency and productivity**, the Municipality initiated a structured process of **drafting, reviewing, and signing job descriptions** for all employees. This intervention is aimed at achieving the following objectives:

- Clarifying the roles, responsibilities, and performance expectations of each staff member.
- Aligning individual duties with the broader strategic goals of the Municipality.
- Ensuring accountability and performance-based management.
- Supporting fair and transparent performance assessments.
-

Clear and up-to-date job descriptions are essential for effective human resource management. They serve as foundational tools for recruitment, performance evaluation, and succession planning, all of which are key to institutional transformation.

Although only **13 out of 25 targets (52%)** under this KPA were achieved, the progress made in critical areas such as skills development and institutional structuring lays an important foundation for future improvement.

The remaining unmet targets highlight areas that require additional focus, resource investment, and improved project execution. Going forward, the Municipality will need to intensify its efforts to ensure

that all institutional development initiatives are implemented fully, on time, and in line with regulatory frameworks and best practice.

2.6.7 Municipal Financial Viability and Management

The **Municipal Financial Viability** Key Performance Area (KPA) plays a central role in ensuring the effective financial stewardship of the municipality. It focuses on financial planning, revenue management, expenditure control, asset oversight, audit responsiveness, and statutory compliance. In the **2024/25 financial year**, the Gamagara Local Municipality committed to a total of **27 planned targets** under this KPA. Of these:

- ✚ **21 targets were achieved,**
- ✚ **06 targets could not be achieved,**
- ✚ **00 targets were deemed not applicable.**

This performance reflects a **78% success rate**, indicating positive progress in financial governance while also highlighting areas that still require attention.

Key Achievements and Interventions

2.6.7.1. Physical Verification of Assets

In line with the Municipality's obligation to maintain a reliable and **GRAP-compliant Asset Register**, a **comprehensive physical verification of assets** was conducted during the year. This exercise:

- ✚ Verified the existence and condition of municipal assets,
- ✚ Improved the accuracy and credibility of financial statements,
- ✚ Strengthened internal controls related to asset management,
- ✚ Enabled the municipality to fulfil audit and compliance requirements efficiently.

This process was not only a compliance measure but also a strategic exercise to safeguard municipal resources and ensure sound financial planning.

2.6.7.2. Indigent Awareness Campaign

Recognising the economic disparities within the municipality, an **Indigent Awareness Campaign** was rolled out. The purpose of the campaign was to:

- ✚ Inform qualifying residents about the **Indigent Support Programme**, which provides subsidised access to essential municipal services such as water, electricity, sanitation, and waste removal.
- ✚ Encourage eligible community members to **register or update their status** on the indigent database.
- ✚ Promote financial inclusion and support vulnerable households through equitable access to services.

This initiative aligns with the Municipality's broader social responsibility mandate and contributes to revenue protection by ensuring accurate billing and subsidisation.

2.6.7.3. Public Consultations on the Budget (All 8 Wards)

In adherence to the **Municipal Finance Management Act (MFMA)** and the principles of participatory governance, the Municipality conducted **budget consultation sessions in all eight wards** during **April 2025**. These consultations:

- ✚ Took place **before and after** the tabling of the **draft budget**,
- ✚ Created platforms for the community to raise concerns, provide input, and influence resource allocation decisions,
- ✚ Strengthened transparency, accountability, and public trust in municipal processes.

These sessions were crucial in ensuring that the budgeting process was inclusive, responsive to local needs, and compliant with legislative frameworks.

2.6.7.4. Audit Action Plan Development and Submission

In response to the findings of the Auditor-General, the Municipality **developed and submitted an Audit Action Plan** to Council. The Plan:

- ✚ Outlined corrective measures to address audit findings and improve internal controls,
- ✚ Served as a **strategic governance tool** to enhance audit outcomes and institutional performance,
- ✚ Demonstrated the Municipality's commitment to **accountability, compliance, and continuous improvement**.

This proactive step reflects a maturing internal control environment and a willingness to address governance challenges.

2.6.7.5. Tabling of Key Schedule Deadlines

To ensure alignment and integration across planning instruments, **key schedule deadlines** were tabled to Council in **August 2024**. These schedules:

- ✚ Outlined the timelines for the **Integrated Development Plan (IDP), Budget, and Performance Management System (PMS)** processes,
- ✚ Promoted efficient coordination between departments and compliance with the MFMA,
- ✚ Ensured structured and timely implementation of municipal planning cycles.

2.6.7.6 Submission of Annual Financial Statements (AFS)

The Municipality submitted its **Annual Financial Statements (AFS) to the Auditor-General** on **31 August 2024**, in line with national legislative requirements. This milestone is critical as it:

- ✚ Marks the culmination of the Municipality's financial year reporting,
- ✚ Enables the Auditor-General to conduct an independent review of financial performance,
- ✚ Reinforces the Municipality's commitment to **transparency, timely reporting, and financial integrity**.

The 2024/25 performance under the **Municipal Financial Viability KPA** demonstrates significant improvement and a strong commitment to sound financial governance. While 6 targets remain unmet, the majority of financial indicators show positive momentum toward improved compliance, stakeholder engagement, and operational accountability.

Going forward, continued focus will be required to address outstanding targets, improve audit outcomes, and sustain financial health through responsive and inclusive financial planning.

During the preparation of the Adjusted Service Delivery and Budget Implementation Plan (SDBIP) for the 2024/2025 financial year, the Municipality inadvertently omitted a key performance indicator: **FIN009 – Annual Submission of the GRAP Compliant Asset Register to the Auditor-General by 31 August 2024**.

This omission was an administrative oversight during the adjustment process and did not reflect a lack of commitment or failure to execute the associated activity. Despite its exclusion from the formal Adjusted SDBIP, the **submission was successfully completed within the required deadline**, showcasing the Finance Department's adherence to compliance requirements and the Municipality's continued efforts to uphold transparency, accountability, and sound financial management practices.

2.7 Service Delivery Key Highlights

Despite the array of operational, technical, and socio-economic challenges that the municipality faced during the **2024/25 financial year**, **Gamagara Local Municipality** remained committed to its constitutional mandate to provide effective, equitable, and sustainable basic services to its communities.

Guided by the values of transparency, accountability, inclusivity, and good governance, the Municipality strived to fulfill its developmental obligations as outlined in the **Constitution of the Republic of South Africa (Act 108 of 1996)** and further supported by the **Municipal Systems Act (32 of 2000)** and the **Municipal Finance Management Act (56 of 2003)**.

Throughout the year under review, service delivery was driven by strategic planning, community participation, and collaboration with key stakeholders, including the private sector and other spheres of government. The Municipality worked diligently to ensure that its service delivery priorities, as captured in the **Integrated Development Plan (IDP)** and the **Service Delivery and Budget Implementation Plan (SDBIP)**, were translated into tangible results on the ground.

The following projects were successfully **accomplished in the 2024/25**:

KPI NO	Project Name	Annual Target	Project Progress to date
BSD001 (PBID 0022)	Electrical reticulation and house connection in Olifantshoek-phase 2	146 stands Electrified in Ditlouw by 30 June 2025	By 30 June 2025, a total of 174 stands in Ditlouw were successfully electrified
BSD002 (PBID 204)	Installation/ Replacement of smart electrical meters	80 smart electrical meters installed by 30 June 2025	A total of 307 electrical meters were installed by 30 June 2025.
BSD004 (PWS 0017B)	Equipping of boreholes and its ancillary works in Dibeng Phase 1 (bulk water augmentation)	4x boreholes drilled towards the upgrading of Dibeng bulk water infrastructure Phase by 30 June 2025	Four boreholes were successfully drilled in Dibeng Phase 1 as part of the bulk water augmentation project, completed by 30 June 2025.
BSD005 (PBID 0035)	Water audits (Phase 2) conducted	2000 water meters audits (phase2) conducted	A total of 2,144 water audits were successfully conducted during Phase 2 for the 2024/25 financial year
BSDS007 (PWS 0029)	Implementation Readiness Study final report for Sesheng	1 Implementation Readiness Study final report for Sesheng by 30 June 2025	The final report for the Implementation Readiness Study in Sesheng was completed
BSD008 (PWS 0019 B)	Number of households connected to internal sewer network (Phase4)	500 households connected to internal sewer network (Phase4) by 31 March 2025	By 31 March 2025, a total of 500 households in Dibeng were successfully connected to the internal

			sewer network as part of Phase 4 of the project
BSD009 (PWS 0019B)	Percentage of work done constructing internal sewer network for 529 stands (Phase 5)	40% of work done constructing internal sewer network for 529 stands (Phase 5)	As of 30 June 2025, 58% of the construction work for the internal sewer network serving 529 stands in Dibeng (Phase 5) had been completed
BSD0010 (BSW 001)	Water reticulation for 1300 stands in Olifantshoek Phase 2	10% of work done on water reticulation for 1300 stands in Olifantshoek (Design Report and Tender documentation)	A 10% progress milestone was achieved on the Olifantshoek Phase 2 water reticulation project, with the completion of the design report and tender documentation for servicing 1,300 stands
BSD0011 (PEC 0023)	Construction of gravity flow sewer network to eliminate Mapoteng Sewer Pumpstation	100% work done in Constructing gravity flow sewer network to eliminate Mapoteng Sewer Pumpstation by 31 March 2025	The project for constructing a gravity flow sewer network in Mapoteng was successfully completed in March 2025, achieving 100% of the planned scope. This development eliminated the need for a sewer pump station in the area.
BSD0012 (PEC 0023)	Feasibility study Report on construction of landfill site in Dibeng	1 Feasibility study Report for construction of landfill site in Dibeng by 31 March 2025	The feasibility study for the construction of a landfill site in Dibeng was successfully completed in March 2025.
BSD0013 (PEC0013B)	Upgrading Sports field in Dibeng	50% of work done in upgrading the Sports field in Dibeng by 30 June 2025	By 30 June 2025, 78% of the upgrade work on the sports field in Dibeng had been completed
BSD0014	Kilometres of internal Roads upgraded in Dibeng	1.3 Kilometres of internal Roads upgraded in Dibeng by 30 June 2025	By 30 June 2025, 1.3 kilometres of internal roads in Dibeng had been upgraded.
BSD0015	Kilometres of internal Roads upgraded in Mapoteng	1 Kilometres of internal Roads upgraded in Mapoteng by 30 June 2025	As of 30 June 2025, 1.16 kilometres of internal roads in Mapoteng were successfully upgraded

2.8 Service Delivery Key Challenges (Basic Service Delivery and Infrastructure Development)

The Public Works and Basic Services Department, experienced service delivery challenges like:

- ✚ **Community and Business Chambers Protests & Unrest:**
 - Disruptions due to protests by community members and local business chambers.
 - Driven by dissatisfaction with service delivery pace, quality, and perceived exclusion from economic opportunities.
 - Resulted in project delays and strained stakeholder relationships.
- ✚ **Vandalism of Infrastructure:**
 - Boreholes and completed infrastructure vandalized.
 - Undermined water supply improvements and required additional repair funding.
 - Led to further service delivery gaps and public frustration.
- ✚ **Geological & Environmental Constraints:**
 - High water tables complicated sewer excavation and pipe-laying.
 - Hard rock formations required blasting in occupied areas, posing safety and technical challenges.
 - Delayed projects due to regulatory requirements and engineering complexities.
- ✚ **Technical Failures:**
 - Frequent malfunctioning of pump stations essential to sewer systems.
 - Caused service interruptions and increased repair and maintenance costs.
- ✚ **Budget and Capacity Strain:**
 - Accumulated impact of delays, repairs, and rework escalated costs.
 - Stretched departmental capacity and impacted ability to meet service commitments.
- ✚ **Strategic Reassessment:**
 - Department reviewing planning, risk management, and stakeholder engagement strategies.
 - Focus on improving project resilience, inclusivity, and implementation efficiency.

The following projects were **not successfully** accomplished:

2.8.1 BSD003 (PWS 0017): Dibeng bulk water Augmentation- Equipping of Boreholes and its ancillary.

- Project delivery impacted by the Landowner who restricted access to his farm
- Engagement with the Farmer (Landowner) were unsuccessful, the Municipality will apply for land expropriation.

2.8.2 BSD006 (PBID 0035B): Replacement of water meters

- Late delivery of materials by the suppliers impacted the achievement of the target for the quarter under review.
- Diversify the suppliers of meters to the municipality, as it is incredibly challenging with one contractor who serve as a sole meter provider.
- Service Provider focused on the repairs or replacement of parts of water meters than the installation of new meters.

2.9 POLITICAL AND ADMINISTRATIVE GOVERNANCE

2.9.1 Political Governance

The **Gamagara Local Municipality Council** serves as the **highest decision-making authority** within the Municipality. It holds a central and strategic role in the governance of the local government and is entrusted with guiding the overall direction of the Municipality's development and service delivery.

This Council is composed of elected representatives who are mandated by the public to act in the best interest of the community.

One of the Council's core responsibilities is the **formulation and adoption of municipal policies**. These policies establish the framework within which the Municipality operates, ensuring that services are rendered equitably and efficiently, and that development initiatives are aligned with legislative requirements and community needs.

In addition to its policy-making role, the Council exercises **oversight over the implementation** of these policies, ensuring that municipal administration complies with the strategic intentions and resolutions passed by the Council.

Structurally, the **Municipal Council constitutes the governing and decision-making body** of the Municipality. It makes strategic decisions, adopts budgets, approves the Integrated Development Plan (IDP), and sets the tone for resource allocation and municipal priorities. These decisions are taken collectively in Council meetings and through various Council committees that manage specific portfolio areas such as finance, infrastructure, and community services.

While the Council is responsible for direction and governance, the **municipal administration—led by the Municipal Manager and Heads of Departments/ Directors and all Municipal Officials are tasked with implementing Council resolutions**. These officials are the operational arm of the Municipality and ensure that the policies, strategies, and plans adopted by Council are executed effectively on the ground.

Through its leadership, the Council defines the strategic course of the Municipality by developing the **Integrated Development Plan (IDP)**, a five-year blueprint that outlines the Municipality's development priorities, and by allocating the necessary resources through the budgeting process. Ultimately, while the Council governs and guides, the **municipal officials are charged with translating policy into practice**, ensuring service delivery and development that reflect the aspirations of the Gamagara community.

The core mandate of the Council is focused on the items listed below:

The municipal council is responsible for political governance and is made up of elected councilors who are led by the mayor. In general, the role of council includes:

- ✚ **Exercise** the municipality's executive and legislative authority
- ✚ **Provide**, democratic and accountable government.
- ✚ **Encourage** the involvement of the community in municipal affairs.
- ✚ **Ensure** services are provided in sustainable manner.
- ✚ **Consult** the community about the level, quality, range and impact of services and the available options for service delivery.
- ✚ **Promote** and **undertake** development in the municipality.
- ✚ Contribute to realization of constitutional fundamental rights.
- ✚ Develop mechanisms to consult the community and community organizations in exercising and performing its powers and functions

The operation of the **Gamagara Local Municipality Council** during the year under review has been marked by **political and administrative stability**, enabling the institution to function effectively in executing its mandate. The council's work has benefited from a **cordial and cooperative relationship** among its key stakeholders, notably between elected councillors, municipal administration, and the broader community.

2.9.2 Governance and Cooperation

- ✚ The **executive and legislative arms** of the municipality have functioned with alignment and mutual support, creating an environment conducive to sound governance and service delivery.
- ✚ Political party councillors have demonstrated **strong inter-party collaboration**, setting aside differences to focus on the **shared goal of improving the quality of life** for residents of Gamagara.
- ✚ The unity among councillors has helped to promote **constructive debate, accountable decision-making**, and a collective drive toward developmental objectives.

2.9.3 Executive Committees Established

In accordance with **Section 79 and Section 80** of the *Local Government: Municipal Structures Act No. 117 of 1998*, the Municipal Council has constituted several executive committees to support the Executive Mayor and to ensure oversight and responsiveness in governance. These committees are essential mechanisms to:

- ✚ Provide focused attention on specific portfolios or policy areas,
- ✚ Enhance **council's ability to monitor, evaluate, and guide service delivery**,
- ✚ Ensure compliance with legislative and regulatory requirements, and
- ✚ **Facilitate effective communication and feedback** between the council, administration, and constituents.

These structures reinforce the municipality's **commitment to transparency, accountability, and participatory governance**, while empowering council to fulfil its **constitutional executive obligations** efficiently.

2.9.4 Portfolio Committees

- ✚ **Finance Committee**
- ✚ **Corporate Services and Community Services Committee**
- ✚ **Public Works & Basic Services and Development & Town Planning**
- ✚ **Municipal Public Accounts Committee**

2.10 Election of new Council

On **1 November 2021**, South Africa conducted its **Local Government Elections**, a key democratic event allowing citizens to elect representatives who will govern at the municipal level. These elections are essential in shaping the **leadership and governance** of municipalities, influencing how **basic services are delivered, development priorities are set, and community voices are represented** in local decision-making.

As part of this national democratic process, **Gamagara Local Municipality**, located in the **Northern Cape Province**, held its local elections and successfully elected a new council. The **official inauguration** of the newly elected council took place on **23 November 2021**, marking the beginning of the new council's term and the formal transfer of **democratic authority** to the elected representatives.

Following their inauguration, the newly constituted council assumed their duties in line with the **Municipal Structures Act** and other applicable legislation. Their core responsibilities include:

- ✚ **Providing strategic oversight** over municipal administration and governance,
- ✚ **Approving and monitoring budgets, policies, and development plans**,
- ✚ Ensuring **transparent, accountable, and efficient service delivery**, and
- ✚ Representing the **interests and needs of the local community** in all governance matters.

This transition reinforced the principles of **local democracy, participatory governance**, and the rule of law, positioning the council to **drive development** and enhance the quality of life for residents across Gamagara.

2.10.1 Composition of Municipal Council and different portfolios

WARD	COUNCILLOR	PORTFOLIO	STATUS	POLITICAL PARTY	GENDER
1	Cllr. H. du Plessis	Ward 1, community service, cooperate service Chairperson and member and EXCO member	Ward Councilor	DA	Female

15	Cllr A. Morwe	Member of Municipal Finance Account Committee (MPAC)	Proportional Representative Councilor	DA	Female

2.11 Administrative Government

In accordance with **Part 7, Section 82 of the Municipal Structures Act (Act 117 of 1998, as amended)**, every municipality is legally required to **appoint a Municipal Manager**, who serves as both the **head of the administration** and the **Accounting Officer** of the institution. This position is pivotal to the overall functioning and governance of the municipality, as it bridges the gap between the political and administrative spheres.

2.11.1 Role and Legal Responsibilities of the Municipal Manager

The **Municipal Manager's role** is governed further by **Section 55 of the Municipal Systems Act (Act 32 of 2000, as amended)**. According to these legislative prescripts, the Municipal Manager must:

- **Implement the policies and priorities** of the Municipal Council,
- Establish and maintain an **efficient, economical, and effective administration**,
- Ensure **accountability, transparency, and good governance**,
- Align all operations with relevant **legislation, regulations, and municipal policies**, and
- Facilitate service delivery that is responsive to community needs.

2.11.2 Municipal Administrative Structure

To carry out these duties effectively, the Municipal Manager **leads and oversees** several core departments, each of which is managed by a **Director**:

- ✚ **Corporate Services** – Manages human resources, legal services, and administrative support functions.
- ✚ **Community Services** – Oversees health, safety, waste management, and social development.
- ✚ **Development and Town Planning** – Focuses on land use planning, spatial development, and environmental management.
- ✚ **Public Works and Basic Services** – Responsible for infrastructure, water, sanitation, roads, and electricity.
- ✚ **Financial Services** – Manages municipal budgeting, revenue collection, and financial reporting.

2.11.3 Shared Services for Specialized Functions

Given the **complexity and specialized nature** of certain municipal functions—and the practical limitations of capacity and resources—the Gamagara Local Municipality has opted for a **shared services model** for selected services. Specifically:

- ✚ **Internal Audit**
- ✚ **Audit, Risk and Performance Committee (ARPC)**

Certain critical municipal functions are delivered through collaborative partnerships with the **John Taolo Gaetsewe District Municipality**. This shared service arrangement enhances operational efficiency by pooling expertise, resources, and administrative capabilities between the two municipalities. Such collaboration promotes professional oversight and ensures that specialized functions are managed by skilled personnel, thereby improving the quality and reliability of service delivery.

By leveraging the district municipality's capacity, the Gamagara Local Municipality benefits from cost-effective resource utilization, avoiding unnecessary duplication of efforts and reducing operational expenses. This cooperative model allows the municipality to focus its internal resources on other priority areas, ultimately maximizing the impact of its limited budget.

Furthermore, this governance structure supports adherence to sound management and good governance principles. It fosters transparency, accountability, and compliance with legislative requirements, ensuring that services are delivered in a manner that reflects the municipality's strategic objectives and responds effectively to the needs and expectations of the local community.

The top organisational structure of the municipality is as follows:

2.11 Public Accountability and Participation

Public participation is a **foundational principle of democratic local governance**, and its centrality is explicitly emphasized in **Section 16 of the Municipal Systems Act (MSA), 2000**. This legislation mandates that municipalities **foster a culture of participatory governance**, which goes beyond formal electoral representation to include **direct engagement with the community** in shaping municipal affairs.

2.11.1 Legal and Governance Basis

According to **Section 16 of the MSA**, municipalities are obligated to:

- ✚ **Encourage and create conditions** that enable meaningful public participation,
- ✚ Develop a **culture of governance** that complements representative democracy with participatory systems, and
- ✚ Facilitate community involvement in all critical planning, decision-making, and service delivery processes.

This legal provision ensures that **residents have a direct say** in how the municipality is run, particularly regarding development priorities and the allocation of resources.

2.11.2 Structured Platforms for Public Participation

To operationalize participatory governance, **Gamagara Local Municipality** relies on several **structured stakeholder engagement platforms**, including:

- ✚ **Integrated Development Plan (IDP) Representative Forum:** A broad-based platform that includes ward committees, sector departments, community-based organizations, and the private sector. It allows diverse stakeholder voices to influence municipal planning.

- ✚ **Sectoral Consultative Forums:** These engage specific community groups (e.g., youth, women, business, disabled persons) on issues directly impacting them.
- ✚ **Ward Committee Meetings:** These are convened at the grassroots level to ensure ward-specific development priorities are captured and integrated into the municipal planning processes.
- ✚ **Community Development Workers (CDW) Programme:** CDWs act as a bridge between communities and government, facilitating communication, gathering feedback, and ensuring communities are informed and involved.
- ✚ **Private Sector Engagements:** These are crucial for identifying partnership opportunities and aligning development with local economic needs.

2.11.3 Public Review of Draft Plans

In addition to these forums, the public is also encouraged to **review and comment on the draft IDP** and other strategic documents within legislated timeframes. This ensures that final municipal plans reflect the inputs and aspirations of the broader community.

In addition to the structured stakeholder forums and consultative platforms, the municipality actively encourages the broader public to participate in the planning process by reviewing and providing feedback on the draft Integrated Development Plan (IDP) and other key strategic documents. These documents are made available within legislated timeframes, ensuring that there is adequate opportunity for meaningful public scrutiny and input.

This participatory approach is essential for fostering transparency and inclusivity in municipal governance. By inviting community members to engage with the draft plans, the municipality not only promotes a culture of openness but also gathers valuable insights that reflect the diverse needs, priorities, and aspirations of its residents. Such inputs are carefully considered and integrated where appropriate, helping to ensure that the final approved plans are responsive, realistic, and aligned with the community's vision for development.

Ultimately, this process strengthens democratic governance by empowering citizens to have a direct voice in shaping the strategic direction of their municipality. It also enhances accountability by providing a platform where the municipality must justify its proposals and demonstrate how community feedback has been incorporated into the final planning documents.

2.11.4 Purpose of Consultative Engagements

The **IDP consultative meetings** serve as key opportunities for:

- ✚ **Educating communities** about the planning and budgeting processes,
- ✚ **Capturing community needs and priorities,**
- ✚ Ensuring that planning is **bottom-up and inclusive**, and
- ✚ Promoting **transparency and trust** between the municipality and its residents.

CHAPTER 3

3. SERVICE DELIVERY PERFORMANCE

In line with the strategic priorities of local government, the municipality's performance for the **2024/2025** financial year has been arranged to the following Key Performance Areas (KPA):

The KPA's are divided into measurable and achievable Key Performance Indicators (KPI's) to ensure that the KPA's are achieved.

A total of 164 KPI's were identified and adopted as implementable. 122 **(74%)** of the KPI's were achieved and 42 **(26%)** were not achieved in the year under review.

3.1.1 Performance Level of the Municipality

KEY PERFORMANCE AREA	NO OF KPI	KPI ACHIEVED	KPI NOT ACHIEVED	KPI DEFERRED/ DISCONTINUED	% ACHIEVED 2023/24	% ACHIEVED 2024/25	% Variance
Basic Services and Infrastructure Investment	15	13	02	00	71%	87%	16%Improvement
Good Governance and Public Participation	28	24	04	00	60%	86%	26% Improvement
Public Safety, and Sustainable Environment	18	17	01	00	80%	94%	14% Improvement
Municipal Financial Viability	27	21	06	00	52%	78%	26% Improvement
Municipal Transformation and Institutional Development	25	13	12	00	43%	52%	09% Improvement
Socio Economic Development	26	17	09	00	78%	65%	13% Regression
Spatial Development and Transformation	25	16	09	00	77%	64%	13% Regression
Total	164	121	43	00	60%	74%	14% Improvement

3.1.2 General Depiction Performance Analysis

During the 2024/2025 financial year, **Gamagara Local Municipality (GLM)** set out to achieve a total of **164 performance targets** across various departments and Key Performance Areas (KPAs), as part of its Service Delivery and Budget Implementation Plan (SDBIP) and broader strategic commitments aligned to the **Integrated Development Plan (IDP)**.

Performance Overview:

Targets Achieved: 121

This represents approximately **74%** of the total planned targets. The achievement reflects notable progress in implementing core service delivery programs, improving infrastructure, strengthening governance systems, and meeting legislative and community expectations. Achieved targets are an indication of:

- ✚ Effective planning and resource alignment,
- ✚ Improved departmental performance and oversight,
- ✚ Strategic partnerships and community engagement that supported implementation.

Targets Not Achieved: 43

Roughly **26%** of the targets could not be met during the reporting period. While this represents a shortfall, it is critical to recognize that non-achievement often stems from **real-world operational challenges** such as:

- ✚ Budgetary constraints or funding delays,
- ✚ Protests or community unrest disrupting implementation,
- ✚ Supply chain delays and procurement challenges,
- ✚ Environmental or technical complexities (e.g., high water tables, rock formations),
- ✚ Capacity issues within certain departments or service units,
- ✚ Strategic realignments or changes in prioritization due to unforeseen events.

Strategic Implication:

The overall performance indicates a **moderate to high level of institutional effectiveness**, with room for improvement.

3.1.3 Annual Performance per KPA

During the period under review, the Municipality experienced both improvements and regressions in performance across the various Key Performance Areas (KPAs), as reflected in the table below. These variances indicate areas where progress has been made, as well as those that require targeted interventions and corrective actions.

The Municipality's performance has been assessed in alignment with the Strategic Key Performance Areas outlined by the National Government for local government. These national KPAs are as follows:

- 1) **Basic Service Delivery and Infrastructure Investment** – focusing on the provision and maintenance of essential services such as water, electricity, sanitation, and roads.
- 2) **Local Economic Development (LED)** – aimed at stimulating economic activity, job creation, and sustainable livelihoods within the local area.
- 3) **Municipal Transformation and Institutional Development** – concerned with strengthening internal municipal capacity, systems, and structures for improved service delivery.
- 4) **Municipal Financial Viability and Management** – emphasizing sound financial management, budget discipline, and long-term financial sustainability.
- 5) **Good Governance and Public Participation** – promoting transparency, accountability, and active engagement of communities in municipal processes.

In addition to these five national KPAs, the Gamagara Local Municipality (GLM) has adopted two additional KPAs to better reflect local priorities and strategic objectives:

- 6) **Public Safety and Sustainable Environment** – addressing issues related to community safety, environmental protection, and resilience to climate change.
- 7) **Spatial Development and Transformation** – focusing on integrated spatial planning, land use management, and the transformation of spatial inequalities inherited from the past.

The inclusion of these additional KPAs demonstrates the Municipality's commitment to a more comprehensive and context-specific performance management approach, ensuring that developmental challenges unique to the local context are effectively addressed.

3.1.4 The year-on-year Annual Performance Comparison

In accordance with **Section 46(1)(b)** of the Local Government: **Municipal Systems Act**, No. 32 of 2000, which requires a municipality to include in its annual performance report a comparison of the actual performance achieved against the targets set for the previous financial year, the following performance analysis is presented for the **2024/2025** financial year.

During the 2024/2025 financial year, **Gamagara Local Municipality (GLM)** committed to a total of **164 Key Performance Indicators (KPIs)**. Of these:

- ✚ **121 KPIs (74%) were achieved**, reflecting solid progress.
 - ✚ **43 KPIs (26%) were not achieved** during the reporting period.
- Comparative Performance Improvement:**

When compared to the **2023/2024 financial year:**

- ✚ **Only 60%** of targets were achieved then.
- ✚ **38%** were not achieved.

This indicates a **notable 14% improvement** in overall target achievement in 2024/2025 and a **12% reduction** in unmet targets, showing strengthened institutional performance, improved planning, and more effective implementation across departments.

Key Observations:

- ✚ The rise in achievement from **60% to 74%** demonstrates a positive trajectory in governance and service delivery.
- ✚ The decline in non-achievement from **38% to 26%** reflects better oversight, monitoring, and corrective intervention practices.
- ✚ The results indicate that although challenges remain, the municipality has made tangible progress in meeting its developmental and strategic goals.

This performance trend, if sustained, positions the municipality to reach higher levels of operational efficiency and community impact in subsequent years.

The table below demonstrates the year-on-year performance comparison:

CHAPTER 4:

4. COMPREHENSIVE SERVICE BUDGET IMPLEMENTATION PLAN (SDBIP)

4.1 Service Delivery Budget Implementation Plan

The **Gamagara Local Municipality's 2024/2025 performance analysis**, as presented in the Service Delivery and Budget Implementation Plan (SDBIP)—offers a detailed and structured review of how well the Municipality has delivered on its commitments. Here's a full expatiation:

4.1.1 Strategic and Legislative Alignment

The **Key Performance Indicators (KPIs)** set out in the SDBIP are **directly aligned with the Municipality's strategic priorities and development objectives**, as articulated in the **reviewed Integrated Development Plan (IDP)**. This alignment ensures that every action taken by the Municipality is not only purpose-driven but also legally and strategically guided.

In compliance with:

- ✚ The **Local Government: Municipal Systems Act (Act 32 of 2000)**, and
- ✚ **Performance Management System (PMS) Regulations**, a **seamless integration** must exist between the **IDP, SDBIP, and the approved budget**. This ensures:
 - ✚ Proper planning,
 - ✚ Efficient resource allocation,
 - ✚ Strategic implementation, and
 - ✚ Accurate performance monitoring and reporting.

4.1.2 Performance Monitoring and Reporting Process

To measure actual performance:

- ✚ **All departments** were required to compile detailed **quarterly and annual performance reports**.
- ✚ Reports had to be supported by a **Portfolio of Evidence (PoE)**, validating that the reported achievements were accurate and verifiable.

If targets were **not met**, departments were obligated to:

- ✚ **Provide clear explanations** for non-achievement,
- ✚ Identify the **root causes**, and
- ✚ Submit **corrective action plans** outlining:
 - What steps would be taken to get back on track,
 - How the issue would be avoided in the future, and
 - When the revised targets would be met.

This system enhances accountability, supports continuous improvement, and ensures that challenges are addressed proactively.

4.1.3 Purpose and Value of the Report

This report reflects the **actual institutional performance** of the Municipality **against its planned commitments** for the 2024/2025 financial year. It serves several purposes:

- ✚ **Tracks progress** on service delivery and governance obligations,
- ✚ Facilitates **evidence-based decision-making**,
- ✚ Promotes **transparency** and good governance,
- ✚ Helps identify areas of **strength** and **opportunities for improvement**, and
- ✚ Forms the basis for **oversight**, both internally (Council, Executive) and externally (communities, Auditor-General, sector departments).

4.1.4 Continuous Improvement Tool

By integrating strategic planning, budgeting, and performance monitoring into a single performance management cycle, the Municipality ensures:

-  Service delivery is **responsive** to community needs,
-  Institutional actions are **aligned with strategic goals**, and
-  **Resource use is efficient and effective.**

This alignment also supports **real-time adjustments** where performance gaps are identified, ensuring that the Municipality stays on course in achieving its objectives. The 2024/2025 performance report is not just an administrative exercise—it is a **critical tool** for driving **accountability, transparency, and development impact**.

It highlights the Municipality's progress, while also holding it responsible for closing the gaps in areas where performance has lagged expectations. Through this structured performance management approach, Gamagara Local Municipality is better equipped to deliver on its mandate and improve the quality of life for its residents.

CHAPTER: 5

5. SUMMARY

BASIC SERVICE DELIVERY AND INFRASTRUCTURE DEVELOPMENT

The Key Performance Area (KPA) Basic service Delivery and Infrastructure Investment had a total number of **15** planned targets in the 2024/25 financial year, **13** targets were achieved and **02** could not be achieved in the year under review.

PUBLIC SAFETY AND SUSTAINABLE ENVIRONMENT

The Key Performance Area (KPA) Good Governance and Public Participation had a total number of **18** planned targets in the 2024/25 financial year all **18** targets were achieved and **00** could not be achieved in the year under review.

GOOD GOVERNANCE AND PUBLIC PARTICIPATION

The Key Performance Area (KPA) Good Governance and Public Participation had a total number of **28** planned targets in the 2024/25 financial year, **24** targets were achieved and **04** could not be achieved in the year under review.

SPATIAL DEVELOPMENT AND TRANSFORMATION

The Key Performance Area (KPA) Spatial Development and Transformation had a total number of **25** planned targets in the 2024/25 financial year **16** target was achieved and **09** could not be achieved, in the year under review.

SOCIAL AND ECONOMIC DEVELOPMENT

The Key Performance Area (KPA) Social and Economic Development had a total number of **26** planned targets in the 2024/25 financial year **17** target was achieved and **09** could not be achieved.

MUNICIPAL TRANSFORMATION AND INSTITUTIONAL DEVELOPMENT

The Key Performance Area (KPA) Organizational Development and Institutional Transformation had a total number of **25** planned targets in the 2024/25 financial year **13** targets were achieved and **12** could not be achieved.

MUNICIPAL FINANCIAL VIABILITY AND MANAGEMENT

The Key Performance Area (KPA) Municipal Financial Viability had a total number of **27** planned targets in the 2024/25 financial year, **21** targets were achieved and **06** could not be achieved.

5.1 CONCLUSION

The Municipality's performance management approach is designed to be **responsive, transparent, and results driven**. By grounding performance evaluation in a clearly defined legislative framework, and by fostering interdepartmental integration and accountability at all levels, Gamagara Local Municipality is committed to enhancing the quality of life for its residents through **efficient, equitable, and sustainable service delivery**.

For the **year under review**, the Gamagara Local Municipality identified and formally adopted a total of **164 Key Performance Indicators (KPIs)** as part of its **Service Delivery and Budget Implementation Plan (SDBIP)** and broader **performance management framework**. These KPIs were derived from strategic objectives outlined in the **Integrated Development Plan (IDP)** and were designed to translate the Municipality's goals into measurable, actionable outcomes across various departments and functional areas.

Of the **164 KPIs identified**:

- **122 KPIs (approximately 74%) were successfully achieved**, indicating a strong level of implementation, effective resource utilization, and alignment between planned objectives and actual service delivery outcomes.
- **42 KPIs (approximately 26%) were not achieved**, reflecting areas where performance fell short of the set targets. These shortfalls were attributed to a variety of factors, which may have included budgetary constraints, capacity limitations, operational delays, unforeseen environmental or technical challenges, and, in some instances, external factors beyond the Municipality's control.

Corrective Measures and Continuous Improvements

In response to the underachievement of the 42 KPIs, the Municipality undertook a process of **diagnostic review and intervention planning**. Each instance of underperformance was examined to identify root causes and contributing factors. Based on these assessments, **corrective measures** were developed and implemented. These included, but were not limited to:

- ✚ Reallocation or augmentation of resources (financial, human, or logistical);
- ✚ Strengthening interdepartmental coordination and accountability;
- ✚ Revising implementation timelines where delays were unavoidable;
- ✚ Engaging with stakeholders and community representatives to resolve project-related disruptions;
- ✚ Enhancing monitoring mechanisms to detect and address performance risks earlier in the cycle.

These interventions underscore the Municipality's commitment to **adaptive management, institutional learning**, and **continuous performance improvement**. Additionally, the Municipality continues to use the annual performance review process not only as a compliance exercise but as a strategic tool to refine planning, improve delivery capacity, and strengthen its governance and accountability mechanisms.

GAMAGARA LOCAL MUNICIPALITY

SERVICE PROVIDER ASSESSMENT FOR THE 2024/25 FINANCIAL YEAR

ANNEXTURE

SERVICE PROVIDER ASSESSMENT FOR THE 2024/25 FINANCIAL YEAR

ANNUAL PERFORMANCE ASSESMENT OF SERVICE PROVIDERS 2024/2025 FINANCIAL YEAR						
Project name	Name of Service provider	Contract Period - / Commencement Date	Completion date	Contract Amount	Assessment of service provider (Scale 1-5) 1 - Poor 2 - Fair 3 -Average 4 - Good 5 – Excellent	Assessment Comments
